- English (Basics)
- Urdu (Professional)
- Balochi (Native)
- Sindhi (Native)
- Saraiki (Native)

PROFILE SUMMARY

Highly motivated Computer Systems Engineer with practical experience in Software Development, Networking, IT Infrastructure, and Enterprise IT Operations. Gained hands-on experience in network administration, system support, and IT operations, with a strong ability to learn and adapt quickly to new technologies and work environments. A fast learner with a proactive approach to acquiring new technical skills and solving problems effectively. Passionate about modern technologies, cybersecurity, networking, and software solutions.

WORK EXPERIENCE

Karachi shipyard and engineering works limited

April 2026 - August 2026

- Managing and supporting IFS ERP operations—focusing on the supply chain module, inventory tracking, and enterprise business processes.
- Creating and managing Fault Reports in IFS to record, track, and monitor technical and operational issues.
- Supporting network administration, monitoring, troubleshooting, and IT infrastructure operations.
- Assisting with the configuration, maintenance, and troubleshooting of network devices and systems.
- Working with IP addressing, network connectivity, system maintenance, and technical support.

Fauji Fertilizer company limited (Intern Jan 2026- Feb 2026)

- Managed IT infrastructure and data center operations to ensure high availability and optimal system performance.
- Configured and maintained LAN/WAN networking environments, managing IP addressing and network connectivity.
- Diagnosed and resolved network connectivity issues, performing routine system maintenance and troubleshooting.
- Monitored enterprise servers, oversaw Oracle database environments, and executed regular data backup activities.
- Delivered comprehensive technical support for hardware, software, and peripheral systems across the organization

Ability Pvt Ltd - Software Development Department

Jan 2025-Feb 2025

- Demonstrated strong problem-solving skills and technical aptitude while collaborating with team members on software tasks.
- Contributed effectively to team projects, exhibiting teamwork and meeting performance expectations in a corporate environment.

Sybrid Pvt. Ltd - SDS Department Jan 2024-Feb 2024

- Assisted in frontend and software development tasks, contributing to responsive web application features.
- Practiced standard industry workflows and debugging processes to identify, isolate, and resolve code issues.
- Enhanced UI handling and user experience, refining interface layouts and problem-solving skills.
- Developed interactive user interfaces using Vue.js, applying modern frontend framework best practices.
